

## **Join us for a Wild Time!**

All Racine Zoo Summer Camps include up close encounters with our animals, daily crafts, snacks, and plenty of hands on learning about our animals, wildlife, and the environment. From feeding giraffes to meeting zookeepers, each day of Zoo Camp is full of fun and adventure. Give your child the experience of a lifetime and sign them up for Racine Zoo's Summer Camp today!

K-7 Camps take place from 9:00am-4:00pm; Age 3-4 Camps are from 9:00am – 12:00pm  
Sign up your child for the age/grade entering in Fall  
Costs and registration online at [www.racinezoo.org](http://www.racinezoo.org)

### **Ages 3-4:**

#### **Colorful Creatures**

How many hues do you see at the zoo? What shape is a great ape? Can you spy with your little eye a fox on the sly? Come monkey around during this exciting and electrifying shape and color adventure!

#### **Animal Patrol**

Does your child love Paw Patrol? Join us as we explore how animals build, swim, and fly with themed days and learn how to help animals around the world, just like in Adventure Bay!

#### **Sense-ational Storytime Safari**

Animal senses are super special! Your preschoolers are sure to have a sense-ational time as we explore the fascinating worlds of animal noses, eyes, ears, touch, taste and so much more. Our adventures will include daily stories to help in our investigatory super sense-ational sleuthing safari. Your little sleuths in training will not want to miss out!

#### **Movin' and Groovin'**

Jungle Boogie through the Zoo, groove with the 'roos and get jiggy with the piggies as your preschooler explores the Zoo's creatures moves and grooves in their daily lives! This is one festive, fantastic dance party you sure don't want to miss!

## **Ages 3-4 (cont.):**

### **Farmyard Fun**

Old MacDonald's got nothin' on the Racine Zoo! Join us as we investigate wild animals that moo, grunt, quack, roar and more through a cacophony of critter calls. Your kids will enjoy a Barnyard Safari of Fun as we boogie through this fun farm creature caper!

## **Grade K-1:**

### **Amazing Animal Adaptations**

From surviving hot desert days to slippery, sloppy slopes, animals have a wonderful way of dealing with where they live. Join us for a week-long expedition throughout the Zoo as we explore the amazing world of animal adaptations- claws, jaws and all!

### **Who's Who at the Zoo**

Who's scaly, who's slimy, who's furry, who's grimy? Find out as we investigate the world of magnificent mammals, brilliant birds, amazing amphibians, radical reptiles and impressive invertebrates during this stupendous snooping search!

### **Gonna Go Wild!**

Love Wild Kratts? Learn all about adaptations by mimicking them yourself, just like the Kratt Brothers. Earn a new Creature Power every day while learning how to help animals in the wild!

### **Wild Senses and Crazy Defenses**

To survive in the rough and tumble world of the animal kingdom, you need to stay on top of the pack! Learn about animals that smell with their tongues, taste with their skin and have paws, spines and stinky behinds to help protect them. Get excited to go ballistic about everything animalistic!

### **Animal Olympics**

Swinging from vine to vine, jumping from limb to limb and climbing over falling rock are just some things that creatures have to deal with to survive. Come and explore the world of animal Olympians and see who you find most deserving of a gold medal during this critter competition!

## **Grade 2-3:**

### **Extreme Animals**

Nothing is tame as we dive into the world of extreme animals! These carefree critters go against the grain and some of their adaptations are insane! Long tongues, hairy manes and kickboxing pros are investigated during this thrilling week of discovery and fun!

### **Weird and Wacky Animal Oddities**

Think people are strange? You should see some of these animals!! Some don't give a hoot, while others spray their poop! We're sure to have a great time as we explore the world of the weird, wild, whacky and wonderful!

## **Grade 2-3 (cont.)**

### **Zoovengers and Animal Outlaws**

The animal kingdom is filled with animal super heroes, and here at the Racine Zoo, we have a few! Join us for an exploration of heroic animal skills and adaptations as we uncover the sneaky villains in nature. Who are these fiendish animal outlaws, and why should we save them?

### **Grossology**

Come join the Racine Zoo as we explore the gross and bizarre facts about the animal kingdom- from stinky slime to picking bugs off a partner's behind! Learning about these animals can bring your kids from EWWW to COOL in this hands-on, engrossing week of delight!

## **Grades 4-5:**

### **Dangerous Defenses**

Danger lurks ahead, participate if you dare! Mysteries surround the Racine Zoo will be revealed as we uncover some of the adaptations of world's most dangerous creatures and how the Zoo helps conservationists keep animals safe from extinction.

### **Earth Explorers**

Open your imagination and become a global jet setter as we explore the magnificent world of migration. We'll visit the ends of the earth virtually as we discover animals that swoon and croon across continents.

### **Magical Menagerie**

Meet fantastic beasts each day and learn how the animals at the Racine Zoo would be sorted into houses at Hogwarts. From superb finders in Hufflepuff to the misunderstood Slytherins, this week is sure to be absolutely magical!

### **Super Sleuths, Fossils, & Mysteries**

A new and thrilling challenge awaits you every day with the mysteries of ZSI: Racine Zoo! Have fun with fossils, furry creatures and everything else in between during this super sleuthing adventure.

### **Habitats and Hideaways**

It's a wonderful weird world out there, so take care! Learn about the fascinating food webs and homes of these creative critters while having a whale of a good time. This action packed week of creature features will have you discovering hideaways and habitats you never knew existed!

## **Grades 6-7:**

### **Junior Zoo Keepers**

Meet animal care experts and create something new and exciting for the animals during this career camp experience. Immerse yourself in the life of a zookeeper as we explore the fundamentals of animal care, diet and nutrition, enrichment and more.

### **Conservation Connections**

Learn how global conservation efforts connect to the animals in our zoo! Explore various field

conservation initiatives through hands-on encounters, activities, and crafts and learn how to make a difference for wildlife.
